

Quality Policy Statement

Greenpark Engineering is a specialist procurement and engineering practice, providing products and services to the Oil & Gas and extractive industries. Our unique systems, coupled with our dynamic, professional and experienced workforce ensure that we consistently deliver the most efficient, cost effective and long-term sustainable solutions which conform to our clients' particular specifications.

Quality in planning, design and delivery relies on three primary elements: skilled personnel, effective supplier management and a proven process.

It is the policy of Greenpark Engineering to provide a customer focused and professional solution based on the following precepts:

- Sound engineering principles.
- Progressive application of current engineering systems and products.
- Innovative design concepts evolving into sustainable environmental solutions.
- Secure supply chain and logistics control.
- Value for money and tight cost control.

In support of this policy, the organisation is committed to a process of continuous improvement in all aspects of our service including the provision of quality assurance to our customers in line with the requirements of ISO 9001:2015 Standard for Quality Management.

ISO 9001:2015 is an integral part of our process management and the organisation is dedicated to ensuring its continuing effectiveness by:

- Providing clear focus on priorities through the establishment of business and quality objectives.
- Making available the necessary resources for the effective functioning of the quality management system and the achievement of its quality objectives.
- Communicating the policy and objectives to all employees.
- Providing the necessary training and skills.

To achieve this overall policy, Greenpark Engineering commits to providing all the necessary resources, including finance, personnel, premises, staff facilities and equipment to assure quality.

This policy is realised through constant feedback and liaison with our clients and through the strict adherence to and continuous improvement of our quality management system based on the requirements of ISO 9001:2015.

The realisation of this policy is the responsibility of all Greenpark Engineering employees.

G.M. Murphy
